MOD Series

introducing

**MOD Series**

air MOD Series harmonises aluminium windows and doors into one holistic system giving homeowners impressive engineering, no matter what aesthetic they choose.

## Award Winning Windows & Doors

air MOD Series aluminium windows and doors have been designed to offer you an exclusive range of aluminium profiles that suite with the most impressive bi-fold and lift & slide doors – air 800 bi-fold doors and air 500LS & 600LS lift & slide doors.

air MOD Series includes MOD Contemporary, MOD Heritage, MOD Flush, MOD Tilt & Turn and MOD Doors. Each aluminium window and door has been expertly engineered to offer superior performance and captivating style.

The sleek, slimline frames benefit both the interior and exterior of homes, inviting more natural light inside while providing cutting-edge kerb appeal.

The full range is available in any RAL colour, including dual colour, and can be finished with beautiful handles and impressive hardware to add the finishing touches.

air MOD Series has been exclusively designed with high-performance in mind, offering low U-Values for excellent energy efficiency, thermally insulated aluminium profiles, robust double glazing that can be upgraded to triple glazing and high-security locking systems, certified to Secured by Design, the UK's Official Police Security Initiative.

# MOD Contemporary Windows

Designed to add luxury and sleek aesthetics, air MOD Contemporary aluminium windows will transform homes in ultra-modern style.

air MOD Contemporary windows feature super slim, sleek aluminium frames that let in boundless light and add captivating style, whilst providing impressive performance benefits.

Aluminium windows are often chosen for the way the slim frames are able to flood homes with light while holding large expanses of glass, thanks to the strong, resilient materials that provide strength and durability to endure the rigors of every day life. The sleek frames are also available in any RAL colour for full design flexibility.

Offering the same impressive aesthetics and performance as air widespan bifold and lift & slide doors means projects can be fully suited with aluminium glazing.

For full peace of mind, air MOD Contemporary windows are PAS 24 and Document Q compliant, and certified Secured by Design.

Also available in French casement opening style.

Create your contemporary living space

# MOD Flush Windows

air MOD Flush windows offer a state-of-the-art finish, with flush aluminium frames and large glass areas.

air MOD Flush aluminium windows take sleek window design to new heights.

The flush aluminium frames give the windows a clean, sleek finish, achieving ultimate contemporary aesthetics, and helping to transform homes into a standout property that oozes kerb appeal.

The slim frames of air MOD Flush windows also invite more light inside, creating a more open and welcoming interior.

air MOD Flush aluminium windows have innovative performance features. The high insulation, flush aluminium windows have been expertly engineered to offer excellent efficiency, high security and enduring strength, striking the perfect balance between form and function.

air MOD Flush windows feature high security multipoint locking with PAS 24 and Secured by Design certification.

Also available in French casement opening style.

# MOD Heritage Windows

air MOD Heritage windows combine aluminium frames with a steel-look, Art Deco appearance to offer beautiful style, striking the perfect balance between classic and contemporary.

air MOD Heritage aluminium windows are designed to offer modern luxury, as a 21st century replacement for Art Deco style steel windows.

air MOD Heritage windows are an updated design of the classic, Art Deco steel-look window that has stood the test of time. Combining aluminium frames with a heritage appearance offers beautiful style, striking the perfect balance between classic and contemporary.

The slim aluminium frames create a light, airy interior with a beautiful, sleek exterior, and are available in any RAL colour.

Using aluminium frames to offer impressive 21st century performance benefits while maintaining a traditional, period style.

air MOD Heritage allows you to maintain a traditional, period look whilst increasing the performance of your windows using high performance aluminium frames and superior glazing, creating a stronger, more secure, energy efficient and durable window.

Also available in French casement opening style.

Also available in Heritage Flush - a world-first from air.

A perfect balance between classic and contemporary

# MOD Tilt & Turn

air MOD Tilt & Turn aluminium windows offer a feature that's easy to operate and maintain, whilst providing impressive style.

air MOD Tilt & Turn windows have been expertly engineered to offer form as well as function. Easy to operate, clean and maintain, air MOD Tilt & Turn windows have been made with you in mind.

The sleek and stylish windows have been designed to open in ways that suit your needs as they can either turn fully inwards or tilt slightly. Turning the window allows them to be fully opened inwards from the side, for wide openings and easy cleaning.

Tilting the window means the window slightly opens inwards from the top, for ventilation all year round.

The strength and rigidity of the frames means they can hold larger expanses of glass for optimum levels of natural light flooding the indoors. MOD Tilt & Turn windows feature fully concealed hinges and gearing for a minimalist look. Much like the rest of the air range, our tilt & turn aluminium windows are resistant to rotting, warping or fading, and will look stunning for years to come.

Sizes available up to 1400mm (w) and 2400mm (h) for a one pane single opener. Fixed frames are available in large sizes.

Perfect form and function

# Handle Options

Sleek, stylish new windows need the perfect finishing touches. The right handle provides the best performance, top security and stunning aesthetics.

Selected with design-conscious homeowners that pay close attention to detail in mind, our handle options add the finishing touches to classic and modern windows.

Our handle range has been designed to provide high-quality and durability. They're fully tested for corrosion and operation so that they look great and work smoothly for years to come.

For an authentic finish, choose heritage hardware such as monkey tail or pear drop handles and dummy peg stays – striking the perfect balance between traditional style and 21st century performance.

Choose from Black, White, Gold, Chrome, Silver and Endurosteel in our standard hardware range, or Antique Bronze, Bronze Red Tint, Graphite, Black, White, Pewter Patina, Electro Gold, Satin Chrome and Polished Chrome heritage hardware options.

Multiple hinges are available for MOD Series, and all options are easy-clean. If you're opting for a larger side-hung opening, a Mega Egress hinge is recommended. The stainless steel hinges can hold greater weights and larger sashes, making them perfect for windows with wider openings. The Mega Egress has been designed for side-hung windows to give them more possibilities. The hinges allow for wide openings so they are also suitable for fire escape windows.

# Handcrafted by aluminium experts

air is made in London. We have been manufacturing aluminium products for residential and commercial use since 1980 and have won the award for Manufacturing Business of the Year 2018, 2019, 2020 and 2021.

Our dedicated team has the knowledge and the skill to create air windows and doors with captivating engineering that carries an industry-leading guarantee.

We use cutting-edge technology and expert skill to create sets of air windows and doors that are truly captivating - all from our state-of-the-art 65,000 sq ft production facility. Manufacturing automation is backed by years of product knowledge and skilled craftsmanship.

Countless hours are dedicated to testing air to ensure that performance is never compromised. This means that we can ensure wind resistance and water resistance are at their optimum and U-values are as low as possible.

Every product we manufacture goes through a strict quality checking process so air is ready for installation by your Accredited Retailer when it arrives with you.
